

# PROFESSIONALISATION STRAND AFREA: 2017

Dr. Donna Podems

# Professionalisation of Evaluators

## What are the Roads to Professionalisation?

For a continent that is still developing, where service levels are often poor, and funding is finite, good evaluation can offer much needed empirical information and useful processes with which to make informed management decisions. **Capable evaluators can fulfil an important societal role, while incompetent ones can be a detriment.**

# Key Impression: One

- Strengthening evaluators is happening in many parts of the world, and in Africa, though the degree to which it is happening varies considerably

# Key Impression: Two

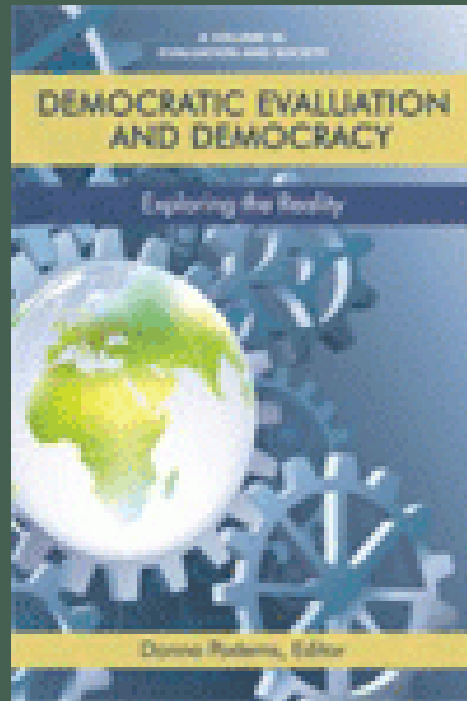

- Lack of referencing of, or referring to, the EvalAgenda 2020

# Personal Benefit

- Listening to what others are doing around cultural competence—and how that is being defined (and struggled with) in Africa

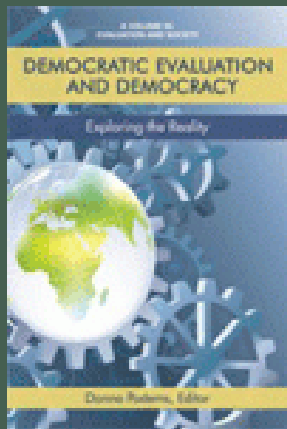

# Launch of a **Made in Africa** Book

# Rad Resources

- **Global Evaluation Agenda**
